**"Getting the lead out--
Impacts of lead on wildlife and
non-lead hunting and angling"**

SSWA Photo Contest

Winners to be announced

**Come vote for the
Grand Prize Winner**

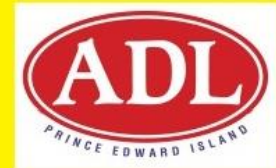

**Presentation of local
historical photos**

Refreshments and fun for all

"Today we admitted a mature male bald eagle. It tested positive for lead. This is the third eagle we have admitted for lead poisoning this year."

Dr. Van Doninck reveals the true impact of lead shot, bullets, and fishing tackle on wildlife and their potential harm to humans, and offers cost-effective non-lead alternatives for both hunters and anglers.
